Aries (March 21 - April 19): Tangerine

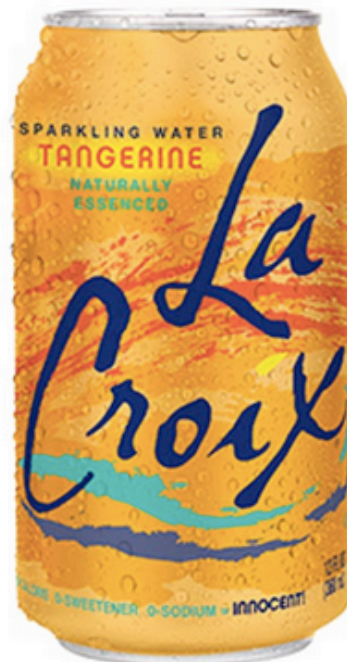

Photo: LaCroix

Aries are known as the "babies" of the zodiac. Their innocence is buoyed by an effervescent nature that makes them all too similar to Tangerine LaCroix. Tangerine is pretty close to Sunny D in flavor, which is great for someone so child-like.

Like an Aries, Tangerine is a little different than a normal person. It's not quite orange, and it's definitely not lime - it's just a little left of center. Still, this flavor packs a punch, much like the headstrong ram.
