### Vanilla Pear Cocktail

This fizzy, refreshing drink packs a whole lot of sweet flavor. Did we mention it can be made in under five minutes? Done and done.

#### What You'll Need:

- Pear-flavored vodka (we used [Absolut Pears](#))
- Pear juice
- Vanilla bean
- Ice
- [La Croix](#) Peach-Pear flavored sparkling water

Step 1: To make one drink, pour a single shot of the vodka into a shaker, and mix it with a half cup of pear juice.

Step 2: Place the vanilla bean on a hard surface like a cutting board, and using a paring knife, slice the vanilla bean lengthwise. Then, using the knife (or even a spoon), scrape the seeds out of the inside of the vanilla bean and into the juice mixture. Shake everything to combine.

Step 3: Pour over ice into a highball glass. Top everything off by adding a splash of the flavored sparkling water to your cocktail. Now just add a straw and enjoy!
